Dear Alice

Hi! Hope you are fine. From your letter I got
 to know about Warwick and I checked out
 your website. It was very nice please let me
 know when do you celebrate your birthday. I
 celebrated my 10th birthday on April 3, 2013. After
 four days it's my small brother's birthday.
 This year I am in V class. We are learning a
 new language, that is French and that's not all.
 There is a Robotics lab and an English lab and
 lot more. Is there any thing new that you have
 started to learn? I am very fond of animals
 and very soon even I would bring home two
 puppies you asked about the passes. They are
 actually not passes but identity cards which are
 mandatory for us to be worn during our
 school hours. We have a beautiful uniform which
 makes us look even smarter. What about your
 uniform? Do you also have 1d.

Dear Ciara,

I was very happy to receive a reply from you. It was great to learn about your loving pet. I too wish to have a pet but my mother does not enjoy it so much. So you are too close to London just 100 miles. My Aunty stays in Luton whenever I visit her, I will surely make it a point to meet you.

Do you know that we have an extreme climate here. Life at school is full of fun. Pressure of study is not too much. We have a lot of cultural activities and celebrate all festivals. We also had confluence competition 2013. All top schools of west Delhi had participated in it and our school also. You can visit my school website www.SachdevaGlobalSchool.in to see the fun at school. I belong to the Peace house and the other house groups are Glory, Pride and Harmony.

I love swimming and chill out in the pool during the summer. However at present I am concentrating on badminton training and hence spent more time on it. This gives me satisfaction as compared to other things and activities. I feel good to know that you love to play football. Yeah! Sports keeps us fit. My school has 3 language English, Hindi and Sanskrit in addition to maths, science, social studies, computers and General Knowledge. Which is your favorite subject? Which man do you like? Convey my regards to your parents. Love Nibala

Dear Louire Denton,

The staff and students of Sachdeva Global School wish you, your staff and your students a very healthy, happy and fruitful new year 2013. As intimated to you earlier, our school reopened after the winter break on 14 Jan and thereafter we were busy practicing for our Annual Day celebrations which took place on 22 January, commemorating our Republic Day (26 Jan). The theme of the same was "Colours of India". We will soon be sending you pics of the same.

We are attaching 22 letters from 15 students of IV A for your students. You will also find personal/ family photographs with each letter. We felt that the knowledge of how each friend looks in person will help in the personal relationship that each duo of students will form. More letters will follow soon. We will request your students to also send some pics of themselves along with their letters.

Looking forward to a friendship beyond borders,

Warm Regards,

Dear Debra,

Thanks for the letters. The format is fine and we'll be distributing them to the students. I'm sure they'll be delighted to receive them as they have been waiting expectantly.

We, as a school, have chosen the project "From our window" under "Template Projects" of British Council- Schools Online Program. As you'll agree, it is for the same age group and will be a good extension activity, now that our children know each other.

To register for the same, we need to submit the user id of our partner school as well. Hence we request you to provide us the same. The approx expected time duration for the completion of the same is also to be provided. We request you and Mrs Denton to go through the project details and let us know whether you can begin immediately and whether we can get over with the project by end of May (as we'll close down for summer vacation in June).

Warm regards

Sumana Dutta
