Circular No.: -SGS/Admn./212/2014

Class: X

Subject: Parent Teacher Meet

Dear Parent

“Dermatoglyphics”: Analysis of unique Multiple Intelligence of each individual through fingerprints is the latest technology being used to “Map the Mind” and find out the strengths of the individual. This in turn would help in selection of suitable academic stream in class – XI and predicting the profession/ future prospect that each individual will be most successful at.

Taking up this pioneering initiative, scans of all Class X students’ fingerprints were taken and detailed reports have already been generated. The students have been given a short presentation to make them understand their own reports.

To complete this circle of understanding your child better, we invite all parents of Class X to an interactive workshop on Saturday, 29 Nov 2014 from 09:00 a.m. to 10:00 a.m. You all are requested to be seated by 08:45 am sharp. The workshop will be followed by PTM with the class teachers.

Looking forward to a great interaction with everyone.

Warm Regards,

**Mrs. Novita Chopra
(Head of School)**
