SUMMER HOLIDAY HOMEWORK

SESSION: 2025-26

CLASS: I

Month of May brings long, hot days,
It's time to enjoy holidays.
Summer means no more school,
Having fun, with no set rules.
Playing, talking and watching cartoons,
Fun continues till end of June.
This beautiful time comes once in a year,
I am excited my friends,
The holidays are near...

Dear students,

Vacation has just one letter difference with vocation. Summer vacation is the time when you can be more candid and creative. This is the time when skills, other than intellectual skills, can be nurtured and developed in your soft and evolving brains. Holiday assignments are designed to let the creative and latent talents, skills and desires of the children come to the surface so that they may be identified and satisfied. So dear children, Get... Set... Go... Enjoy doing the activities and ensure completion of the given assignments.

Enrichment Activities

1. Learn a new hobby – swimming, roller skating, cricket, karate, music, dance, summer camp etc.
2. Work and play are equally important. Computer games are good. They sharpen your intellect, but what about the rest of your body? You do need some exercise, don't you? Go cycling, play badminton, cricket, kho-kho, hide n' seek anything that makes you run and exercise.
3. Go for a nature walk with your family. You will realize you have two of the greatest gifts of life.... NATURE and your FAMILY.
4. Read at least two books of your interest during the vacation. Maintain a self-made dictionary of the new words you come across while reading.

5. 'Care and Concern' - This is your chance to look after your parents, grandparents, elders and even your younger brothers and sisters. You can surely be of some help to your family members. Ask your family members if they need some help in everyday chores.

GENERAL INSTRUCTIONS:

- Holiday Homework will be graded on the basis of neatness, creativity and originality of ideas.
- Ensure that the holiday homework is completed by the children themselves. Parents should only act as a guide in completing the work.
- Homework should be completed neatly as per the given instructions and school script must be followed while doing written work in all the subjects.

11-20	आ
21-30	इ
31-40	ई

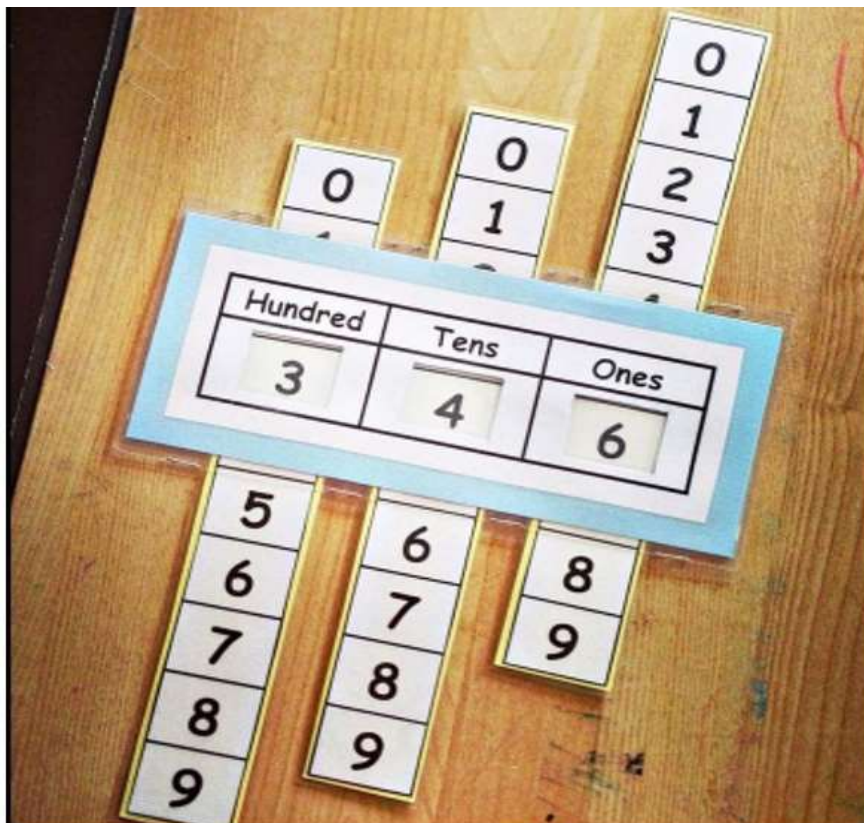

MATHEMATICS – LEARNING BY DOING

ACTIVITY - KNOW THE NUMBER PLACE

Use an A4-size sheet to write Hundreds, Tens, and Ones as shown in the image below. Cut three long vertical strips, one for each place value. On each strip of paper, write the numbers 0–9. These strips will slide up and down to show different digits.

To make slider windows, cut rectangular sliders with a square cut-out in the center. Each window should show only one digit at a time. You will need one slider for each place value (a total of three). Align each strip with its window. Secure the edges of the window panel to a base sheet, allowing the strips to slide freely.

- **Number Magic:** Do page no- 1 to 4, 9-12 and 14.

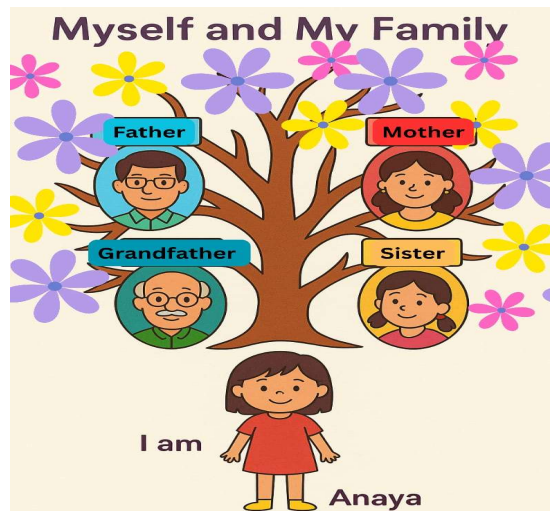

GENERAL AWARENESS – LEARNING BY DOING

ACTIVITY - FAMILY TREE

Make a family Tree using the cut of coloured sheets on an A-4 sheet. Paste the picture of your family members in each circle as shown in the picture below and write two words that describe them. Then label it as 'Small Family/ Big Family'.

A sample has been shown for your reference.

- Write any two things that you did to help your family during the summer vacations.

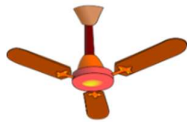

a) _____

b) _____
